Automated MRI Zone 4 Access Control

Protecting MRI environments with automated physcial access control and illuminated safety communication as suggested by the ACR.

American College of Radiology™
ACR® Manual on MR Safety 2024

Why TechGate

BENEFIT

- Prevents Unauthorized Zone 4 Access
- Enhance Patient & Staff Safety
- Improves MRI Workflow Efficiency
- Supports MRI Safety Compliance

Technical Highlights

FEATURE	*DETAILS*
Operation	Automated + Manual
Controls	MRI-Cond. RF Remotes
Safety	Breakaway Arm
Monitoring	Integrated IR Sensors
Installation	15-20 Minutes
Maintenance	None Required

AEGYS®
A BETTER WAY

THE ORIGINAL. THE PATENTED. TECHGATE.

Key Features

- Robotic LED-lit MRI caution barrier
- Physical Zone 4 access control
- Automated IR sensor operation
- MRI-conditional remote controls
- Patented emergency breakaway arm
- Illuminated MRI hazard warning system
- Flexible doorway and suite compatibility
- Fast 15–20-minute installation
- No maintenance or annual calibration required
- Custom engineering support available

Key Benefits

- Helps prevent MRI projectile accidents
- Restricts unauthorized Zone 4 access
- Enhances patient and staff safety
- Reduces human error during procedures
- Improves MRI workflow efficiency
- Increases patient throughput
- Enables rapid emergency egress
- Unparalleled communication of MRI room conditions
- Encourages MRI safety compliance
- Designed for real-world staff utilization
